Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Allowable Subject Matter

1. Claims 11-20 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record issued to Ayyagari et al. fails to teach or suggest a system and method for broadcast transmission of information to a plurality of mobile stations, determining the geographic location of a plurality of mobile stations subscribed to receive certain broadcast information, generating multicast data within the broadcast information, and utilizing an adaptive array antenna, by adjusting the amplitude and phase of received signals at each of plurality of antenna elements as a function of the geographic location of the plurality of mobile stations, particularly, wherein a signal beam is formed having a beam width sufficient to cover only the area substantially bounded by the geographic locations of the plurality of mobile stations as cited in claims 11 and 16. Ayyagari relates to airborne network, wherein a directed beam antenna or a phased array antenna of Ayyagari relates to rather transmitting information to each individual at each mobile station by narrowly adjusting the beam of the adaptive array antenna to that particular individual only as used conventionally.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
